Background Image Guidelines

Before uploading a custom background image, follow these guidelines:

Format: GIF, JPG/JPEG or 24-bit PNG (no alpha). Any transparent areas of PNGs will be shown on a white background.

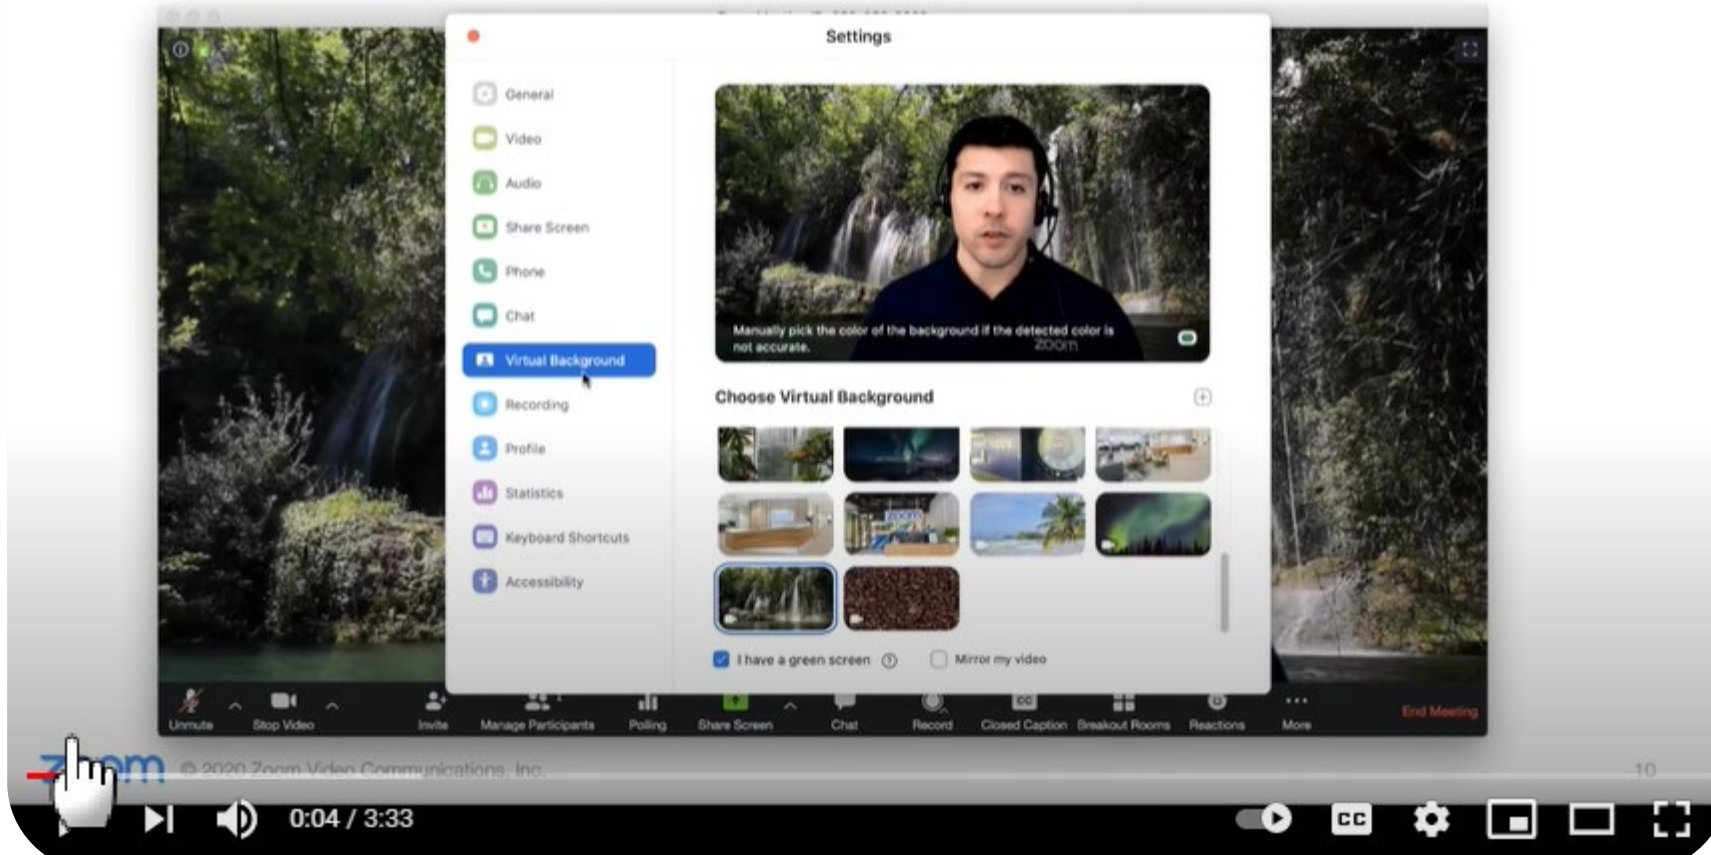

Minimum dimension: 960px

Maximum dimension: 1920px

Recommended dimensions: 1920px by 1080px (**16:9 aspect ratio**). If you don't use an image with an aspect ratio of 16:9, you may see black bars beside the background image.

Maximum file size: 5 MB

Virtual Background In-Meeting

A screenshot of the Zoom application interface during a meeting. The main window shows a virtual background of a waterfall in a forest. A 'Settings' window is open, displaying a list of settings on the left and a preview of the virtual background on the right. The 'Virtual Background' option is highlighted in blue. Below the preview, there is a 'Choose Virtual Background' section with a grid of 10 different background images. At the bottom of the settings window, there are two checkboxes: 'I have a green screen' (checked) and 'Mirror my video' (unchecked). The Zoom meeting toolbar is visible at the bottom, showing icons for Unmute, Stop Video, Invite, Manage Participants, Polling, Share Screen, Chat, Record, Closed Caption, Breakout Rooms, Reactions, and More. The Zoom logo and copyright information are also visible.
